5063.5 Construction of Great Yorkshire Way

Peter Dale, Director of Regeneration and Environment for Doncaster Council stated that following the announcement that Carillion had entered liquidation, they were working closely with Tarmac and the receiver PricewaterhouseCoopers (PWC) to minimise any impact this could have on the completion of the second and final phase of Great Yorkshire Way. Peter has had extremely positive discussions and negotiations and can confirm that as part of the joint venture contract, Tarmac will now become the sole and main contractor for the scheme which will complete the direct link to Doncaster Sheffield Airport from motorway network at Junction 3 of the M18. As part of this agreement Tarmac will take on all contractor liability and responsibility for this council sponsored scheme. Tarmac has formally written to PWC confirming this position and this means they are forging ahead with Great

Yorkshire Way. Work on site is continuing and as delays have been minimised they are still expecting the scheme to be complete in April 2018. They are working with Tarmac and PWC to ensure the Carillion staff, self-employed workers, sub-contractors and suppliers for the project are retained where possible.

5063.6 Letter from Caroline Flint MP - 26 January 2018

Thank you for your recent correspondence regarding ambulance response times to two incidents that happened in Rossington. I am sorry to hear of these incidents and I hope that the two children received suitable care once the ambulance did arrive. I have written to Mr Martyn Prichard, Chief Executive of the Yorkshire Ambulance Service NHS Trust on your behalf and to ask what the ambulance service is doing to improve their response times so that those who need help urgently receive it. I will write to you again when I have a reply.

5063.7 Siting of the bench donated by the Environment Group

RESOLVED to note the bench to be sited on Grange Lane near Asda as this position gained the most votes. The Clerk to contact Doncaster Council's planning department for suggestions on the best place for the seat.

5063.8 Update on Lidl Store, West End Lane Rossington

Gary Rafferty, Senior Consultant Acquisitions for Lidl stated they had hoped the planning permission would have been granted on the 22 December 2017, so the contractors could start work on the site in January 2018. However, there were 2 issues

- 1) Highways – as Lidl had to change the positioning of the store due to a sewer on the site, the entrance from the roundabout has had to be redesigned to accommodate the store and other stores planned on that site.
- 2) The Urban Design Officer for Doncaster Council was not happy with the design of the store that backs onto the open space at the rear of the building even though Lidl complied with Doncaster Council's designs by creating a tree lined pathway. Lidl have resubmitted designs to include a row of windows the length of the store to make it as attractive as they can. J Cooke also suggested large heritage pictures to design brick walls.

The site next to Lidl (which Lidl owns) will house a row of stores such as Greggs/ Subway etc. Any land left will be sold off.

Lidl is aiming to have the Distribution Centre on the iPort Centre open for March 2019. Their goal is to employ local people whenever possible at the store and their distribution centre.
